

McDONALD'S GUIDE 20+21

OUR MANUFACTURING FACILITY

We are part of the 4th Industrial Revolution (Industry 4.0), which strategically combines traditional manufacturing and industrial practices with current smart technology. Our facility contains numerous automated and programmable machines to develop and produce products that are both relevant and consistent in quality. Through lean manufacturing, we believe in continuous improvement and waste elimination. This commitment to lean improves customer value by increasing the excellence of service provided and elevated product satisfaction through reduced lead times, competitive price, and product integrity. With our AWI certification, we are equipped to handle all of your wood, plastic, and acrylic needs.
